THE BRAND BOOK

DÉLICE

MAKE IT YOURS.

Romantic in feeling.
Bold in self-expression.
Alive with youthful energy.

VERSION 1.0 / 26 OCTOBER 2026

Strategy, identity and everyday application

01 / A WORKING REFERENCE

How to use this book

One identity, across every touchpoint

Use this guide for the storefront, social pages, product labels, packaging, content and customer service. Share it with designers, photographers, printers and developers.

Our agreed direction

Youthful luxury for ages 16-30, with an initial commercial focus on university students aged 18-25. Romance, confidence and energy shape the experience.

Status of the artwork

This is the foundational brand direction, not a trademark clearance or manufacturing specification. Logo drawings in this book are typeset layout studies. Final custom vector masters and font licensing must be confirmed before production.

Contents

03 Story / 04 Strategy / 05 Audience / 06 Logo / 07 Colour / 08 Typography / 09 Photography / 10 Packaging / 11 Digital / 12 Voice / 13 Growth / 14 Handoff

Version control

Brand owner: Mohaiminul Islam. Keep one approved master. Record date, version and changed rules whenever the identity evolves. Product names, prices and performance claims require separate confirmation.

02 / WHY DÉLICE EXISTS

The story

The moments we remember are not always the biggest ones.

Sometimes it is the pause before a first introduction. An afternoon out after class. Finding the courage to say how you feel. Or taking the first step towards a dream.

In those moments, we want to show up as ourselves: with confidence, feeling and a sense of who we are.

DÉLICE is being built around that belief. To us, luxury is the feeling of choosing something thoughtfully for yourself. A fragrance that belongs with your style, your mood and your story.

We are creating for a generation that feels deeply, dreams boldly and chooses its own path. Energetic one day. Romantic the next. Quiet or outspoken, there is room for every side of you.

DÉLICE. Make It Yours.

03 / POSITIONING

Our strategic foundation

Positioning

An attainable luxury fragrance brand for young people in Bangladesh who want scent to express their personality.

Purpose

Help young people express themselves through fragrance.

Mission

Bring thoughtful scent, considered presentation and dependable service to everyday moments.

Vision

Become a fragrance brand young people in Bangladesh choose with confidence and affection.

Values

Individuality: room for different moods and identities.
Care: attention to product and service details.
Honesty: clear descriptions, prices and claims.
Expression: encourage personal choice.

What makes the promise credible

Consistent batches, reliable atomizers, clear scent descriptions, honest delivery information and a considered unboxing. These are operating goals to deliver, not unverified achievements.

04 / AUDIENCE AND NEEDS

The people we serve

Primary: ages 18-25

University students looking for a personal scent for campus, outings, gifting and memorable occasions. Lead with discovery, a manageable bottle size and clear scent guidance.

Secondary: ages 16-17

First-time fragrance users. Emphasise creativity, friendship and everyday confidence. Keep content age-appropriate; use adults in romantic campaigns.

Secondary: ages 26-30

Young professionals and postgraduate students. Emphasise versatility, polished presentation and gifting.

Customer journey

Discover a mood > understand the scent > try a sample > choose a bottle > share an honest experience > return when ready.

Creative guardrail

Never imply someone needs perfume to be attractive, accepted or complete. Romance means warmth and connection; boldness means self-expression.

Validate before scaling

Test scent preference, packaging, atomizer reliability and willingness to pay with real customers. Age alone does not predict budget or taste.

05 / LOGO SYSTEM

A name worth remembering

DÉLICE

MAKE IT YOURS.

TYPESET STUDY / FINAL VECTOR ARTWORK TO BE REFINED

Primary and secondary

Use the full DÉLICE wordmark on bottles, website and Facebook profile. A D monogram is reserved for caps, favicon and small seals. The accent on É is always retained.

Clear space and size

Leave at least half the capital-letter height around the mark. Starting test sizes: 120 px wide on screen or 25 mm in print. Verify at actual size; increase if thin strokes disappear.

Colour and misuse

Use ivory on burgundy, burgundy on ivory, or single-colour black/white. Do not stretch, outline, add heavy shadows or place over busy images. Crown/laurel artwork is a previous exploration, not the primary identity in this edition.

06 / COLOUR SPECIFICATIONS

Our signature palette

Burgundy
#4A102A
74, 16, 42

Ivory
#F6F0E8
246, 240, 232

Ink
#181619
24, 22, 25

Gold
#C5A46D
197, 164, 109

Coral
#FF665C
255, 102, 92

A restrained balance

Aim for ivory 50%, burgundy 30%, ink 15%, gold/coral combined 5%. These guide the overall system, not every individual composition.

Readable combinations

Use ink or burgundy for small text on ivory. Use ivory on burgundy. Gold and coral are accents; do not rely on them for small text or status indicators without checking contrast.

Print production

HEX/RGB values are digital references. Ask the printer to convert using the actual paper and press profile, then approve a physical proof. Gold ink is not metallic foil; specify foil separately. No universal CMYK or Pantone match is approved yet.

07 / TYPE AND HIERARCHY

Typography with character

Make It Yours.

EDITORIAL TYPE STUDY

Display candidate: Bodoni Moda

For campaign headings and large editorial statements. Use sparingly; avoid delicate weights at small sizes.

Body candidate: Manrope

For descriptions, prices, navigation and buttons. Use regular for reading and medium/semibold for emphasis.

Bangla candidate: Hind Siliguri

For Bangla explanations, captions and customer information. Keep sentences natural and comfortably spaced.

Digital starting sizes

H1: 40-64 px desktop / 32-40 px mobile.
H2: 28-36 px. Body: 16-18 px. Supporting text: 13-14 px.
Body line-height: 1.5-1.7. Avoid all-caps paragraphs.

Production note

The font families above are candidates: obtain and verify licensed files before use. This PDF uses embedded DejaVu Serif/Sans for portable reference layouts; these are not final custom logo masters.

08 / IMAGE DIRECTION

Romance. Confidence. Motion.

Romance

Warm late-afternoon light, intimate but age-appropriate gestures, burgundy fabric and adult subjects. Show connection and personal feeling.

Boldness

Direct eye contact, simple styling, clean backgrounds and decisive light/shadow. Confidence should feel personal, not aggressive.

Energy

Movement, friends, city evenings and spontaneous outings. Use coral as a small visual spark rather than a full neon palette.

Product photography

Show the actual sellable bottle, cap, liquid and label. Include a clear front view, a detail image and one lifestyle scene. Keep lettering readable and reflections controlled.

Editing and authenticity

Maintain believable skin and product colours. Avoid changing bottle shape or packaging in AI concepts presented as product photos. Customer photos require permission.

Shot brief for every shoot

State the mood, product variant, aspect ratio, copy-safe area and intended channel. Capture both portrait and landscape. Test crop previews before publishing.

09 / PACKAGING DIRECTION

The object and the unboxing

FRONT-LABEL CONCEPTS / NOT PRINT-READY DIELINES

Two proposed moods

PULSE: energetic, fresh/aromatic/woody direction.
AFTERGLOW: warm, floral/amber direction.
Names and scent notes remain proposals until checked and tested.

Structure

Front: brand > scent name > verified product type > net volume. Back/box: verified ingredients, batch and applicable dates, manufacturer/contact and required usage information.

Materials and approval

Use a tested oil/alcohol-resistant label, matching spray/cap and protective folding carton. Measure the actual bottle before sizing. Printer must supply dieline, bleed and safe-area requirements; approve a filled-bottle test and physical print proof.

10 / WEBSITE AND SOCIAL

A compact digital boutique

Website

Ivory canvas, burgundy primary actions and restrained type. Homepage: hero, two-product collection, story, genuine customer experience and footer. Show real stock, prices and delivery conditions.

Facebook profile

Full ivory DÉLICE wordmark on burgundy. Centre within generous circular-crop margins. Omit tiny slogans and decorative crests at avatar size.

Facebook cover

One strong actual-bottle image, DÉLICE and Make It Yours. Keep critical content central and verify the live mobile/desktop crop. Add the website only after the final domain is confirmed.

Reusable templates

Product: bottle + name + one useful scent cue.
Education: one question + short answer + brand signature.
Customer story: approved image/video + honest quote.
Launch: product + availability + clear action.

Operational consistency

Admin-managed content must retain palette and type hierarchy. Compress images, use descriptive alt text and keep checkout readable. Avoid intrusive popups, fake urgency and fabricated ratings.

11 / VOICE AND COPY

How DÉLICE speaks

Our voice

Concise, warm and self-assured. English headlines may be paired with natural Bangla explanations. Product details and policies must be easy to understand.

Core line

DÉLICE - Make It Yours.

Short brand introduction

Fragrance for your mood, your moments and your own way of showing up. Discover DÉLICE. Make It Yours.

Campaign copy examples

A little warmth. A little courage. Your evening.
New day. Your own rhythm.
Find the scent that feels like you.

What to avoid

Guaranteed attraction, invented longevity, unsupported safety claims, fake scarcity and status shaming. Never imply someone is incomplete without the product.

Customer-service pattern

Acknowledge the question > provide the exact information > give a clear next step. If a detail is unknown, check it rather than guessing. Use the same respectful tone in complaints and praise.

12 / LAUNCH AND COMMUNITY

Grow through real experience

Content mix to test

35% mood/lifestyle; 25% fragrance education; 20% product/process; 20% genuine customer experience. Review based on meaningful engagement and sales, not views alone.

DÉLICE Inner Circle

An optional customer/referral community. Reward qualifying delivered, paid sales after the configured return period. Keep commission rules explicit and disclose incentives. Do not pay for recruitment or promise guaranteed income.

Launch sequence

1. Finalise two scent trials and actual unit costs.
2. Gather feedback from consenting adult testers.
3. Approve bottle, labels and product photography.
4. Launch a limited prepared batch with clear service terms.
5. Review results before increasing stock.

Measure what matters

Sample-to-bottle conversion, delivered orders, contribution after variable costs, return reasons, repeat purchases and referral costs. Set targets after the first measured batch.

Founder and brand roles

The founder page shares the building journey. The DÉLICE page focuses on scent, product experience and customers. Maintain the same visual identity in both.

13 / GOVERNANCE AND HANDOFF

The everyday approval checklist

Before any design goes live

Correct DÉLICE spelling and accent; approved colours; readable type; clear logo space; actual product representation; mobile crop checked; genuine claims; one clear action.

Before sending to print

Actual bottle measured; dieline approved; label material tested; small lettering legible; required product data reviewed; physical colour proof approved; final artwork version recorded.

Master asset package to commission

Custom wordmark and monogram in SVG/PDF; transparent PNG exports; black/white variants; licensed fonts; print-ready label/box artwork; social templates. This book specifies the package but does not include final production masters.

File naming

DELICE_[asset]_[variant]_[colour]_v01.ext
Example: DELICE_wordmark_primary_ivory_v01.svg

Keep stable; review thoughtfully

Keep name, primary wordmark, palette and voice consistent. Campaign images and accent use may evolve. Review after customer feedback or a product expansion; log the reason for changes.

Ownership

Brand owner approves final changes. Designers and suppliers should flag technical limitations before production. Keep dated approved files separate from experiments.
